Learning Together

Unity is experienced throughout the year. We explore it in our daily routines, going from class to class, going out for sports or sharing time with friends at lunch. Faculty members tell us how much they care for us and show concern for our future. We stumble to get to school in all the chaos; spending time with the ones we hold special above all others. As we learn, we realize we are all striving to be strong individuals and yet maintain unity within the time that we share together.

Using the title from a popular 80's song, Freeze Frame, the Legend XIX staff attempted to capture the single moments of an event. Co-editors Jill Nelson and Pamela Rapstine overcame initial inexperience, learned technique quickly and endeavored to produce a class yearbook.

Three students returned from the Legend XVIII staff. Ann Marie Vincent documented layouts as Layout Editor, making sure design symbols were in proper places. Photo coordinator Shirley Robertson scheduled photographers to shoot the many activities. Third year student Walter Bruj worked as Photo Editor selecting the best prints for publication.

Beth Huntington joined the staff as Copy Editor. She read many rough drafts and assisted writers in recreating the events. Louie Clark recorded financial transactions, ad sales, fundraising and book sales as Business Manager.

The addition of a publication's darkroom in the yearbook room was a needed advantage. SIP funded the materials to build the darkroom and Rooney's Studio Frame supplied the equipment. Walter Bruj, Jeff Campbell, Tom Stevenson and Chad Troxclair volunteered to build the facility. The journalism and yearbook staffs were able to use the darkroom, decreasing production time. Eliren Pasion supervised the maintainence of the darkroom.

Producing Legend XIX involved many dedicated hours, in class and after school. Their efforts may go unnoticed by some students, but their final reward will be the publication of their work and seeing enjoyment on a reader's face as he relives a special moment. FREEZE FRAME

Fashion Photo Session

The fashions of the 50's and 60's slowly came back into focus. It wasn't unusual to see mini-skirts, pumps and short hair styles on the girls. Keeping with tradition, the football players appeared in bow ties, slacks and top-siders on game days.

During the 80's earrings grabbed the fashion spotlight. Girls were wearing big, colorful and loud earrings. A few girls chose to wear three earring holes in one ear and opted for smaller earrings. Boys found it stylish to wear a post in their left ear.

Hair styles ranged from long and wavy to short and straight. For a variation of both long and short hair, some students had tails, a distinct lengthening of the hair at the nape. For an added twist, a tail could be dyed in different colors.

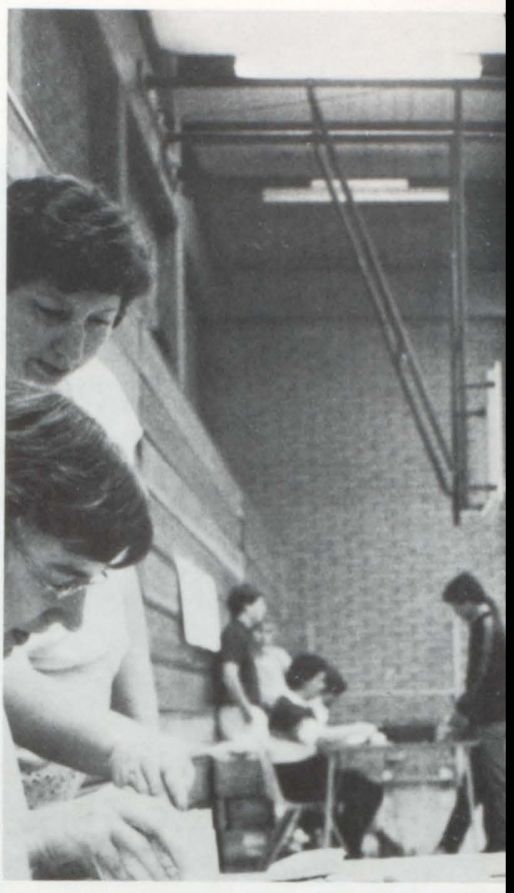
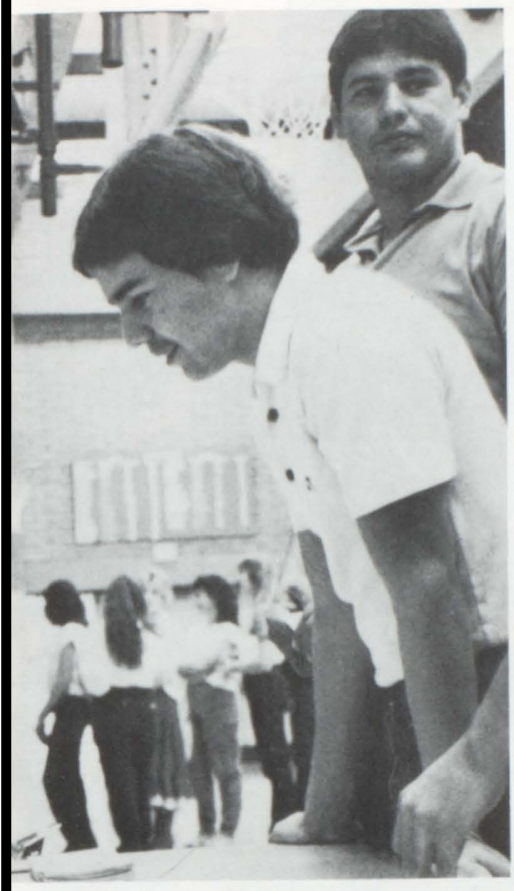
"Not me! I'm not going to do it!
Start school a day early? No Way!"





'They want my picture?'

"Well, that's a lot different! That's how many of us felt on September 6th. Kennedy campus was filled with enthusiastic students as we arrived to further our high school education.

Many memories were relived as students stumbled across old friends throughout the day. Freshmen were welcomed by upperclassmen and a few practical jokes were played.

Everyone was excited to begin a new year with incentives to strive for goals that they believed would be accomplished with the help of their friends. Many frightened people were at ease as soon as they realized they were not in it all alone.

My Friends, My Friends

Now is the time to face your fears,
Take one last look and blink back your tears.
It's time to part and go your own way,
Good-bye, I'll miss you, it's so hard to say.
I'm sorry now for the quarrels we had,
I wish we didn't, it seems so sad.
In the hallways I regret passing by,
without giving a smile, or even a "HI."
Thanks for the times you've given me.
What life is about, you helped me see.
My friends, My friends, even though we are apart,
I will remember your smiles deep in my heart.
Thanks for all the joy we have shared,
It's nice to know that someone cared.
When times are rough, and you can't stand anymore,
Call on a friend from the class of '84.

Students Prepare for Bright Future

John F. Kennedy has a wide variety of classes to choose from, including college bound courses and ROP courses for vocational skills' training in many fields. College bound courses prepare students for college by requiring foreign language, math, science and English courses. ROP programs are offered in Agriculture and Natural Resources, Health, Data Processing, Public Service and Sales Occupations. Students may also take electives in art, photography, journalism, industrial arts and business. In all Kennedy has about 90 different classes to offer students.

DEVELOPING TIME

Underclassmen

Freshmen, Sophomores and Juniors sharpen their skills for the future.

Most freshmen had the same impression about the Kennedy campus. They were not confused about the campus, it was the illogical number order of the classrooms. Kavita Dave' said, "If I was the designer of the campus, it would be built pretty much the same, but I would change the room numbers."

Susie Becker admitted, "I was so scared and confused, that I didn't realize that my 5th and 6th periods were next door to each other."

The most difficult place to find for Teresa Senter was the Business Office. She didn't know that there was a hall leading out of the Front Office, and it was just around the corner. Dave Donaldson had a hard time finding Mr. Michaletos' math class. "I started at the front of the school and went all the way through. I saw a man walking out of a portable classroom, so I asked him where my class was. He knew, because he was my teacher," Dave replied.

'My sister Shellee is a senior here at JFK. It really isn't that bad having her at the same school because I don't have to see her much so I usually forget she's there. Another thing that makes it easy is it's my sisters first year here, just like me. So I don't have any teachers that had her, because I don't like being compared to her. She's not so bad of a sister to have. The only times she mentions anything about us being at the same school is when she calls me a "Freshman Punk".' - Denise Collins

Senior Siblings Assist Young Freshmen

"I have a sister that's a senior at JFK. It doesn't really bother me much. Only a lot of people mistake me for her (We do kinda look alike) or just refer to me as Renee's little sister. Or Chris's, he's a junior. And I'm not little! - Diane Bushard

Tina Parmeley doesn't run into her brother Mike very often. However having a senior older brother has its advantages.

Test Prayer

Now I lay me down to study,
I pray to the Lord I won't go nutty.
If I fail to learn this junk,
I pray to the Lord I will not flunk.
But if I do, don't pity me at all,
Just lay my bones in the study hall.
Tell my teacher I did my best,
And lay my books upon my chest.
If I die before I wake,
That's one less test I have to take.

Five Essentials To Get By in School

1. Being able to make small cheat sheets.
2. Having excellent peripheral vision.
3. Being lucky enough to have an "A" student sitting next to you in Trig.
4. Knowing a friend who works in the front office.
5. Having enough money to bribe the teacher's T.A.

Car Keys . . . Lost or Left?

Oh, No! Where are my car keys? I was out Christmas shopping and left the keys in the ignition. I had to walk home and return with an extra key. Now I carry an extra key in my wallet.

-Barbara Raymond

I tried to use a coat hanger once when I locked my keys in the car at Cinedome.-*Bob Callahan*

Try someone else's keys. Some of my friends and I went to a fast food place for lunch. The keys got locked in the car. We used a friend's key to get in. Would you believe a house key?

Student Attempts to Break JFK Cutting Record

It all took place during the second semester of my Freshman year. I had cut a couple of times before, but never like I was going to. I started to cut quite regularly, and it was becoming a habit. The reason I cut so often was because I wrote my own notes, using my fathers signature, and it worked great. It all caught up to me on the very last day of school. I was called to the office where, to my surprise, were my parents and Mr. Moody. I was given five work days at J.F.K. over summer vacation.

The first time (and the last time) I ever cut was when I was a sophomore. I decided I would cut school by pretending I was my mother and calling the school to say I was sick. I thought I was so sly. I hung up the phone really confident that I had fooled the front office.

I decided to go shopping for the day, but when I got home my little sister yelled, "You're busted, discusted, and can't be trusted! I'm telling Mom!" I immediatly knew that the school had called back to make sure I was sick and that my sister turned me in.

The next day I received a double Saturday. As for my sister, she received a double LIP!

Junior Prom Dates

One question filled the minds of many Juniors, who would be an ideal Junior Prom date? Most of them had an elegant, but expensive taste with champaign, limos and porsches. What more could you ask for?

If I could get away with it I would ask two guys to my Junior Prom. -*Melissa Stocking*

John Stamos would be my ideal date. We would fly to L.A. for a romantic dinner. -*Patricia Oliva*

My ideal date would be Tom Cruise, he has sexy legs. We would fly to L.A. in his private jet. -*Kelly Martin*

I would pick Heather Locklear for my date. We would end the evening on a private secluded beach —*Kevin Turner*

The Flashdance girl, Jenifer Beals. She would be my ideal date. We would drive there in a red corvette. —*George Begonia*

Heather Thomas from Fall Guy would be my ideal date. After we would drive to Carmel in a Rolls-Royce. -*Jeff Campbell*

My ideal date would be Richard Gere, he is fine. We would go out to dinner in a very romantic resturant. We would be driving in his porsche. —*Colleen Dekker.*

Weekends are spent in a variety of ways, but most juniors agree that they should be spent with friends. How are your weekends spent?

I believe that weekends are made for being with friends, going to parties and having a great time. So this weekend get some friends together and party. - *Andi Lopez*

I think weekends are made for getting away from it all, relaxing, and partying at night. - *Chris Grahm*

Weekends are made for

Weekends are made for enjoying yourself with work or play. Most of my weekends are spent working, but I enjoy making money. - *Tony Smith*

The weekends are ideal for us juniors to spend time with our friends in and out of school. No one else knows how to do it up on the weekends like we do. - *Derek Swanger*

Weekends are ideal for partying and having a good time with friends, relatives, and your boyfriend. - Shea Davis

Seniors Present Canterbury Tales

In Geoffrey Chaucer's ***Canterbury Tales,*** written in 1400 about a group of pilgrims winding their way to the shrine of Sir Thomas A. Becket, it was decided that each pilgrim would tell two tales going and two tales returning to London. The teller of the best tale would be treated to a free dinner, paid for by all.

Seniors in Mrs. Anita Bergh's English classes reinacted several of the Canterbury Tales. Working in groups of five and six students, they wrote scripts, designed and created props and memorized lines for their presentations.

A reward of twenty extra credit points was agreed upon for the best presentation. Mr. Don Oldham watched all nine skits and declared a video taped version of "The Cleric's Tale" the winner. Walter Bruj played the role of Alistair Cooke, as narrator, King Walter and a tryant director for the production. Doug Jaffray was the patient Griselda, charming in one of Mrs. Bruj's dresses, though no bra was big enough to go around his athletic chest muscles.

The second place skit was a puppet show. Lori Wilson sewed the hand puppets together for "The Wife of Bath's Tale." Geeta Raju and Shellee Collins were among the group who handled at least two puppets apiece.

Imagination abounded in the skits. Doug Neu and Colin Aro used hula hoops to fight a duel for Emily, played by Elaine Hoskins, in "The Knight's Tale." For another skit Jeff Talamantes was an impressive guard with a sieve for a hat and foil-covered chicken wire as armor. Ed Schultz' and Robert Glenn's pile of dead people added authenticity to their production and fun.

A unique and creative presentation of the bawdy "Miller's Tale" was organized by Rod Spicer, Laura Oliva, Sharon Kennedy, Christy Shaw and Jennifer Anaya, all done in mime with music telling the majority of the story.

Acting out skits can be fun, but it can also be embarrassing. Gales of laughter were heard when Torey Mastracci tried to secretly "poision" the celebration spirits in "The Pardoner's Tale," only to have the cider fizz up and spill all over the floor. Nancy Lindstrom was surprised when Jesse Schaa tried to strangle her. You had to be there or ask Nancy! Students thought the skits were a nice change of pace.

Titan Service Awards

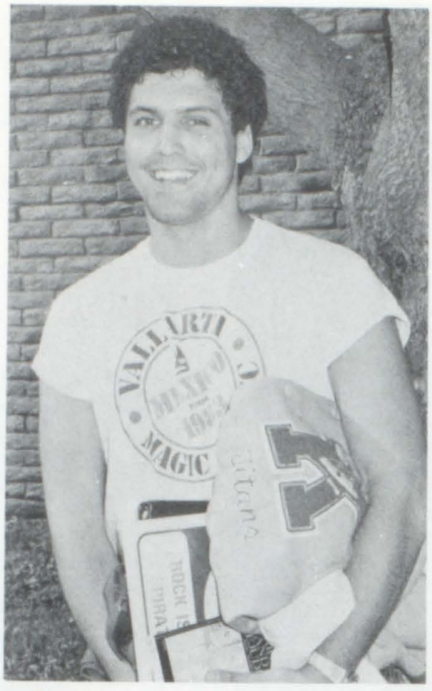
The Titan Service Award honors students for their contribution to Kennedy High School. Students are nominated by club advisors and counselors for their outstanding dedication and service. The nominees complete an application covering their 4 years in activities. A committee of counselors, Dr. Carr and Mrs. Lee rank the students based on their service records. The ten winners of this award have been asked to share what inspired them to get involved, how did it help them as a person, and what advice would they give to a freshman.

The feeling of accomplishment and satisfaction encouraged me to contribute to the school. I wanted to be able to look back and be proud of what I did for my school. Cheerleading and Student Council were my most enjoyable activities. They put me in a spirited atmosphere, and I became motivated about my school.

Participating in school activities has given me confidence and has helped me become acquainted with many different kinds of people. I have also gained insight into organizational problems and ways to solve them.

The advice I would give to Freshmen is "Go to It!" Voice your opinions and become active in school.

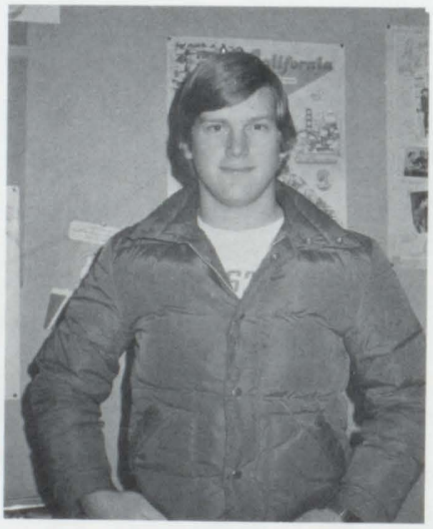
Eileen Allen



Everyone in my family is involved with something, with me it was school. I became active in student activities and found I enjoyed emceeing the most.

Appropriate advice to encourage freshmen to participate in activities would be, "If you want something, make it happen!

Paul Arenas



Most of my friends were involved in school activities, so I soon followed. Participating in Spirit Week every year was the most enjoyable activity.

I met all kinds of new people by participating in activities and by joining different groups.

I would advise students to get involved in as many activities as possible. It will be a good experience, and you will enjoy it.

Dan Brinkman

I knew my high school years would fly by very fast, so I wanted to make the best of it. My friend, Chad Troxclair, encouraged me to get involved in activities. Playing football was great! It kept me in line. Being Rally Commissioner was enjoyable, especially when rallies turned out good.

Taking pictures for the yearbook helped me meet a lot of people and make new friends. I gained confidence and learned how to relate to other people by working on school projects.

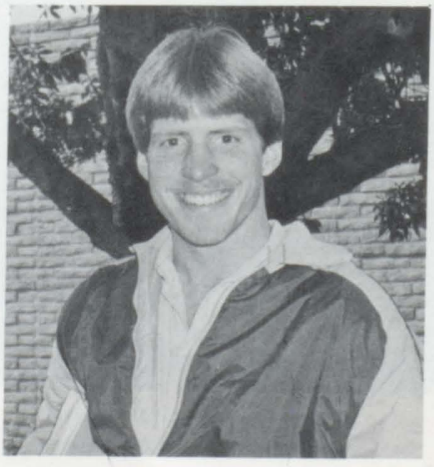
Students should participate in whatever they feel like doing. They shouldn't be shy or afraid. If you do it just once, the next time will be easier. Participating in activities makes school fun.

Walter Bruj

I was most encouraged in contributing to my school, because I wanted to get as much as I could out of high school, I felt that I had the ability to lead and that is what encouraged me to run for Student Council. I had always been involved in sports, and I learned even more in school sports.

Athletics taught me a lot about life and competition. Student Council helped me to work with others. I also learned to push myself both physically and mentally. Sometimes I felt like quitting out of frustration or laziness, but I found I earned more self-esteem for pushing myself. Participating in school helped me to become a well-rounded person.

Jeff Cherry

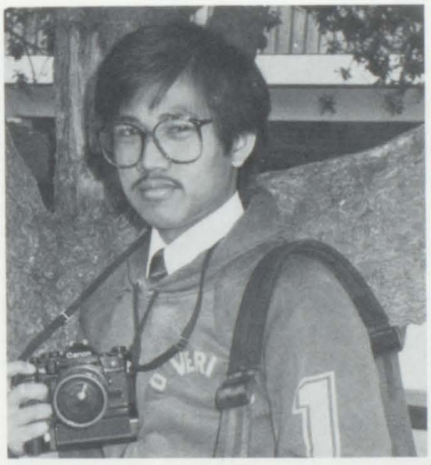


I don't like to sit around and watch other people run things. Getting involved in school activities kept me busy, I'd be bored just doing homework. I liked helping out and giving my ideas. I enjoyed participating in athletics, basketball, baseball, football, and tennis.

Through activities I learned to become a better leader. It helped me to budget my time well between schoolwork and activities. I learned to deal with my peers, administrators, coaches, etc.

I would advise freshmen to get involved right away. When you look back, it's worth it. Too many people regret after they get out of high school that they didn't get involved.

Dan Faria



The students before me, who did the same thing but in their own way, encouraged me to contribute to my school, especially the class of 1981. I enjoyed the noon time rallies, Spirit Week, Spring Fever Week and air guitar.

My involvement with school activities has made me more aware of how important participation is. It has made me think about almost everything I do every day.

To Freshmen I would say participating within the school is excellent, for it introduces you to what is new and fun. Becoming involved with school activities and organizations also opens one's talents.

Eliren Pasion

My sister Lisa was pretty involved in school and seemed to have a good time, so I thought I'd get involved. Getting involved was my own inside desire; I couldn't just sit around and let everyone else do the work and have the fun. Cheerleading, Student Council and basketball were enjoyable. I can't really pick one favorite.

By being involved I learned a lot about myself and dealing with people. I also learned about the responsibilities, problems and solutions of being a leader. The feeling of self accopmlishment is the best reward.

Participating in activities makes school more enjoyable. Go do it! Get involved! Don't wait until your Senior Year, or you'll miss out on a lot.

Tami Reading

I have always been inclined to help my school, because I like to make things happen. I feel good inside as I am doing something for my school and especially after I have completed it. The most enjoyable activities in my four years at JFK were Spirit Week, government, clubs and dances. Sports were great and profitable.

Participating helped me as a person to realize what it takes to be a leader. Also activities helped me to get to know everyone, including the teachers and counselors which I feel is important.

Freshmen should get involved with Student Council, above all, and then any other clubs that may be of interest. They shouldn't spread themselves too thin. Students should become involved with school activities as soon as they are able.

Ken Wong

I wanted to be actively involved in school, because I knew my high school years would be very special. If I got involved, I knew I'd enjoy them more. All the activities were enjoyable, but Spirit Group was my favorite. Student Council ran a close second.

Participating in school activities helped me learn more about other people and myself as well. I learned how to deal with different personalities and how to bend. I also learned how to control my temper.

Students should participate in every school activity that interests them. High school is fun, and the fun results from getting involved.

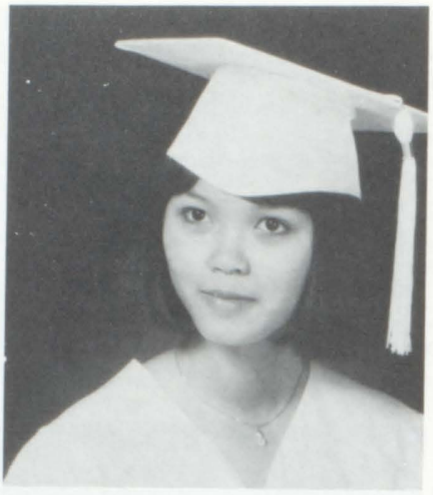
The top ten students of the Class of '84 have demonstrated an academic excellence in their pursuit of knowledge. To achieve this goal has required a commitment to education. They have been asked to share why they believe education is important, their future plans, and a word of encouragement to younger students.



Education is a constant process of training and developing of the mind and character. It extends beyond school, although schools do help you to better undergo such a process. An obligation to my pride and integrity inspired me to do well in high school.

After graduation I will be attending U.C. Berkely as a biochemistry major. I hope to obtain my B.S. degree and then go on for a masters to eventually become a pathologist.

Students, enjoy the present, but always have your future in mind. Do what you feel is important, not what others feel is important; otherwise you would only be lying to yourself.

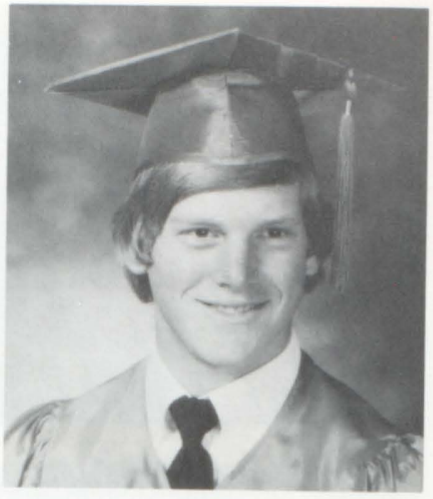
Chi Tran
Valedictorian

The only way to get ahead in this world is with an education. Education can be interesting as well as important. My parents and some teachers inspired me to do well. The desire to go to college motivated me.

I plan to attend Saint Mary's College where I will major in accounting and minor in business administration. After I graduate from college, I will take the Certified Public Accountant exam. I will work as an accountant, because I enjoy the work involved.

Students shouldn't wait until their senior year to study and get good grades. College is different than high school, and is worth the time to go. Making the best of your high school year includes planning for your future.

Lisa Medieros

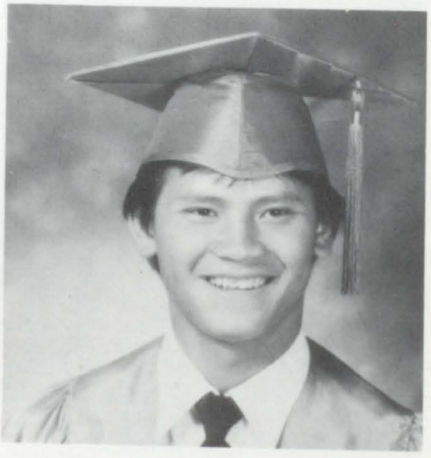


The value of an education is very important for the future. Education is a must for all good jobs. Peer pressure and competition inspired me to keep my grades up. Most of my friends received good grades, and getting A's was a must to stay in the right group.

Good grades are needed to get into college. I plan to major in engineering, but I haven't decided on the college I want to attend. I'm looking at which college would have the best program for engineering.

High school students shouldn't be embarrassed about getting good grades. Always strive for the highest grade possible.

Dan Brinkman

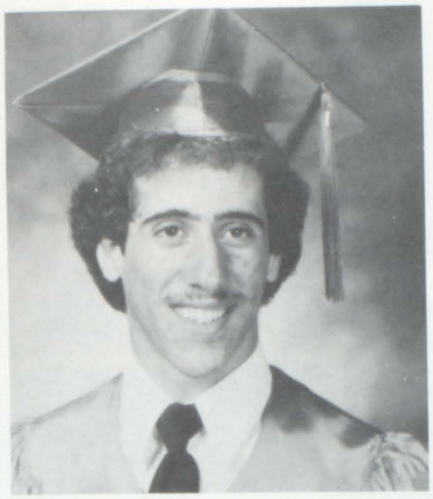


Education is the most important tool in building a career. Without it, no amount of talent or expertise can be fully realized. Through elementary school, junior high and high school, my teachers have always provided the leadership to keep me progressing. I always felt comfortable to ask questions or for help when things were unclear to me.

I plan to attend a four year university. I have not decided on a definite career yet, but I know it will be in the field of science.

Outstanding reading can help students in high school. Even a daily newspaper can demonstrate the difference in life styles between those who have completed their education and those who have not.

Robert Ezra

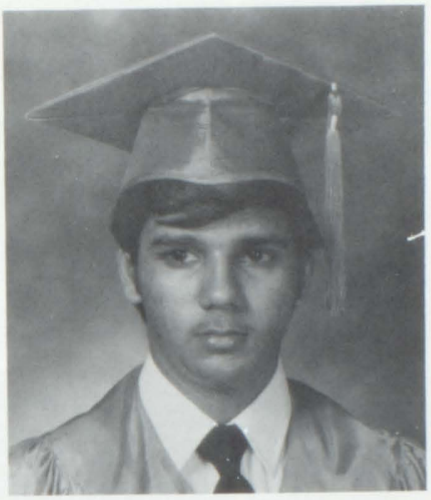


The better we are in school, the more educated we are, the better our country will be. Early in school I realized the benefits a good student received compared to those a not so good student got. That inspired me to do well in school, and so I could make something out of my life.

In the fall I am going to attend the University of California at Davis. Majoring in physical education will give me a background for the field of my interest, sports medicine.

I would encourage students to do as well as they can in high school. It's going to be very tough to get a job in the future without a college education. A high school diploma is no longer sufficient.

Dan Faria



To get anywhere in life, you need a good education. I came from India to the United States to build a better future. Through education I will be able to fulfill my dream.

By graduating early, I can start attending college sooner. I hope to obtain an electrical engineering degree at the University of California at Berkeley. I plan to work in a big industry in the Silicon Valley.

Students should take learning seriously. The best place to get an education is in high school where you start thinking about the future.

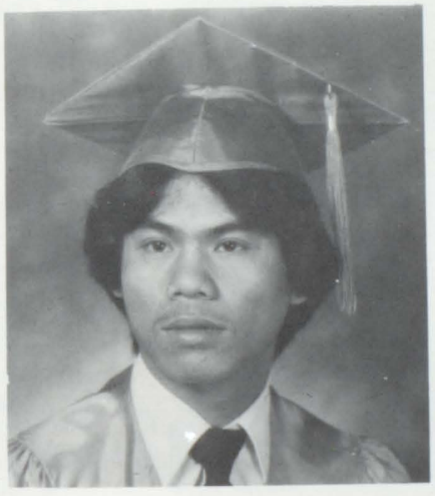
Salil Suri

Education is important, because it is the best way for me to reach my goals. I wanted to make something of myself and that inspired me to do well in high school.

I'm planning to attend a college after I graduate. I have plans to become a mechanical engineer, and college is a must for that career.

Students should think about their future, and education is important. Tomorrow arrives sooner than one thinks.

Toan Van

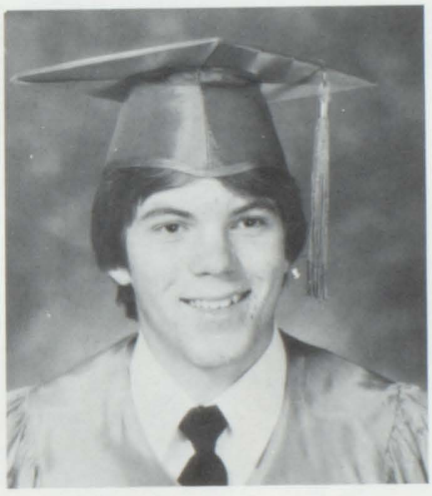


I think an education is very important. Without education man is a primitive animal. In my country my family was poor, and when the government took over, I could no longer go to school. Now in the United States I can study anything. This is what I always wanted, that inspired me to do well.

I will be attending a university after graduation from high school. I've been studying very hard, because I want to be an electrical engineer.

Students should get busy and learn in school. If they waste time now, they will make a lot of sadness for themselves in the future.

Khoi-Huu Le

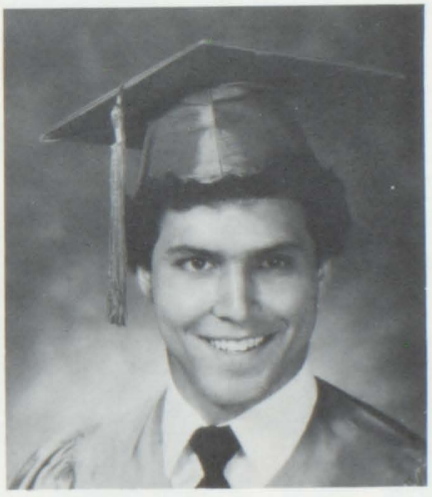


An uneducated person does not have a chance to do well in our society. Electronics and computers are always expanding into new lines of work. A person must keep learning. I did well in school, getting A's and B's, and it wasn't difficult. My parents encouraged my progress.

After high school I plan to attend a four or five year engineering program at Cal Poly San Luis Obispo. I would like a career in electrical engineering at a large or small company.

Students should try their best in high school. If they have problems getting good grades, they should seek help in those problem areas.

Mike Lehnen



Without an education you are limiting your career possibilities. At the present I do not have plans for a career. However, I was inspired to do well in school with the hope of getting into a good college. I hope to attend a four year university.

JFK Cross Country Runners Build Personal Victories

The Cross Country Team was led by team captain, Ken Mezenski, who was also the team's most valuable runner. The lack of participation may have kept the team score low, but individually the runners did well.

When asked if the team always gave their best effort, Coach Ron Wrinkle replied, "110%. Never a discouraging word." Throughout the season, during practice the runners worked to improve their times for the league finals. The team may have finished last in the league, but the young runners show great promise for the future. The entire team felt like winners due to personal VICTORIES!

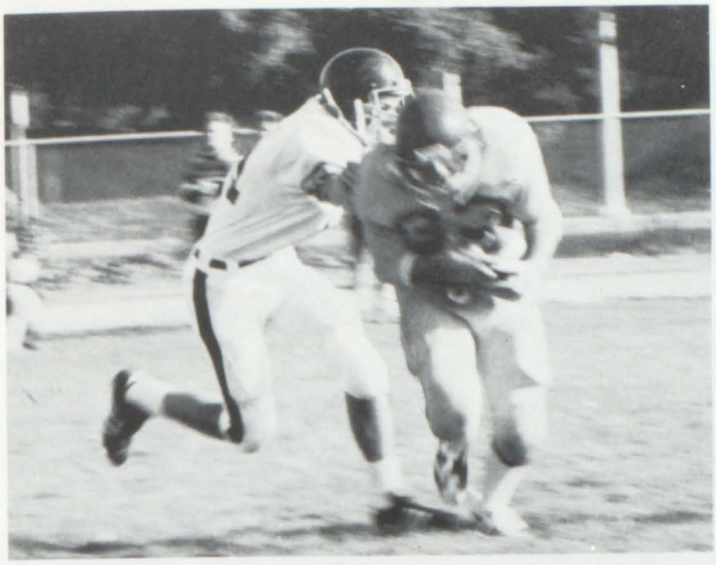
Blank, Carvalho and Olivarez Lead Frosh to 4-4 Record



1

Forty-three boys come out for the freshman running program. One week later twenty-three players remained and proudly wore the Titan uniform. Kennedy won a preseason game against Buscher, 12-0.

In the league opener against Logan, the Colts marched 43 yards on their first possession. However the Titan defense forced a turnover as Jim Kinsey intercepted a Logan pass. The titans marched 40 yards, and Kevin Blank scored two plays later.

After a three game winning streak, the freshman team ended with a 4-4 record. A close loss against Washington dampened their spirit. JFK still played some good football, failing only on the scoreboard.

A strong Titan defense troubled opponents. Tom Gonzales and Marty Marzocco were the top lineman. Gary Olivarez led the linebacking unit with Mike Douglas, Paul Moreno and Celso Santiago. Dan Carvalho, Jim Kinsey and Robert Shannon played at the defensive back spots.

Backs Geren and Mapelli Spark JV Performance

Though the Junior Varsity won only one league game, against Logan 14-8, they lost 4 games by a total of 16 points. With a few more lucky breaks they could easily have had a 8-2 record, instead of the 4-6 record they did have.

With team unity led by Mr. Hustle Ken Geren and Most Valuable Player Pat Mapelli, all of their games were close and exciting. Quarterback John Tebaldi teamed up with either tight-end Dave Hudson or split-end Manny Meri for many passes. The defense was led by inside linebackers Pat Mapelli and Anthony Jorge. Robert English also played well.

Their best game was against Logan in which they had to come back from an eight point deficit at halftime. They scored their 14 points on a 53 yard punt return by Dave Hudson and a 25 yard pass from John Tebaldi to Ken Geren. The 4-6 record was disappointing for this brotherhood that had worked so hard.

Unity Takes Titans to N.C.S. Berth

Coming back from a 0-4 non-league defecit, the Titans held an impressive 4-2 league record. Earning Kennedy a tie for second place in the MVAL, and was the first Kennedy team to reach N.C.S. 3-A Football since the establishment of N.C.S.

Led by all-leaguers Ed Alleyne, Walt Bruj, Doug Jaffray and Jeff Talamantes, the Titans smothered all others with the #1 defense in the MVAL. Helped along by our awesome secondary, JFK allowed the fewest total yards in passing in the league.

Even though the offense was not as accomplished or recognized as the defense, it was every bit as good. With Jaffray and Talamantes, the Titans had a solid offensive line. Quarterback Steve Moeller connected many times with tight-end Jeff Cherry for a 10.7 yard average. John Horvoth led the running backs with 745 yards.

Kennedy's first win came against Logan with Moeller connecting with Joe Freitas for a 6 yrd. touchdown pass. Logan came close to winning after a 53-yard touchdown pass. When a badly snapped ball went sailing over the Logan punter's head, the Titans scored a safety and had a 3 point lead. Two key fourth-quarter interceptions by Jaffray and Jeff Campbell preserved the 9-6 victory over James Logan.

The Moeller-to-Cherry pass with 1:26 left in the Washington game carried Kennedy to a 14-12 win over the Huskies.

Behind a smothering defense Kennedy rolled to a 21-0 victory over Irvington, avenging last year's loss that denied the Titans the title and an N.C.S. play-off berth. Playing his best game, defensive-back Ron Lopez intercepted three Viking passes. Switching to running back, Bruj raced for 93 yards on 20 carries.

Once again JFK's last league game was played with the possibility of an N.C.S. play-off spot at hand. Dedicated Titan fans braved a steady rainstorm to cheer the team to a 20-19 victory over American.

Playing against a heavily favored El Cerrito squad, Kennedy did their best, but just couldn't hang on. In the first half Kennedy did manage to hold the Gauchos to only 84 yards. But they then lapsed after halftime, losing 28-0.

Most valuable player Jaffray forced many turnovers, giving JFK an edge over other teams. Mr. Hustle Jeff Cherry was Kennedy's leading receiver. Most Valuable Lineman honors were shared with Alleyne and Talamantes. Alleyne had the most defensive points in the team's defensive point system, with 265. Talamantes was acknowledged for his skill to play both offense and defense.

Varsity Volleyball Masters Real Meaning of Titans

Success came to the Varsity Volleyball team, although it was not seen on the scoreboard. Not winning a league match did not hamper the players as they progressed rapidly in development and strength as the season drew to a close.

Team members developed a "Titan" attitude toward practice and games. It was rewarding to Coach Diane Coelho to see the team grow in this area. "A player must develop self-confidence, team confidence, a sense of dedication, a mental and physical toughness, and most of all a real and honest understanding of what it means to be a Titan and a sense of great pride in that fact."

The excuses, the cop-outs, the natural tendency of a "losing" team to have little spirit were not evident in this team. The understanding of a team concept and the formation of a sound team attitude helped combat the usual defeatist attitude of teams in a similar situation. The Titans learned what it means to sacrifice for the good of the team, to believe in each other, to care about each other, to work together smoothly and openly, in other words, to be a team player.

Girl's Tennis Team Gains Knowledge And Experience

The growing friendship, warmth and knowledge were the key theme for the 83 tennis team. Sharing time with each other was special and practices were memorable. Playing the matches were a growing and learning experience for the players. The team made the best of the season, dwelling not on the losses, but concentrating on the areas to improve and the skills to be learned.

Susan Mitchell improved steadily throughout the season and became very knowledgible, going from fourth to the number two position in varsity singles. Against Irvington, the tennis team played their very best. "I was very proud of them! They were a young team that learned to play a good game of tennis," Coach Cassady remarked.

We've Come A Long Way

The Titans showed a lot of promise in their preseason schedule with some tough games against San Lorenzo, Newark/Memorial and Granada. JFK was victorious in two of the contests.

Bruce Wynn and Jeff Cherry, the two highest scorers on the team, contributed to the Titan offense. Newcomer Dino Vicini, Danny Faria, Anthony Hudson and Jim Dunn rotated in the starting line-up. The players worked diligently this season with fund raisers to provide new uniforms and sweats. The PTSA contributed time and effort to support this cause. By midseason their goal was achieved and Kennedy proudly sported new outfits.

The highlight of the season was JFK's second place finish in the Kennedy Christmas Classic. It was the first time a Titan team made it to the finals in the 18-year history of the tournament. Coach Mike Kelley was extremely pleased with the team's performance. After defeating MVAL teams, the Titans lost to San Lorenzo by only one point in an overtime period.

Although Kennedy could not manage to win a league game, they kept their fans excited with some close games and comebacks. Kelley deserves much of the credit for giving the Titans a taste of victory and a sense of pride.

Building for the Future

The Kennedy girls varsity basketball team had a challenging season this year. Every player hung in there until the last second of their season was over.

Senior Dawn Hatheway top scorer, and top guard had a good year. Susan Mitchell also proved to be varsity material as she ended up to be one out of two top scorers. Also playing a good season was senior post Robin Rutherford returning for a second year on the team and senior Tami Reading even though this was her first year on the Varsity team.

In the words of Robin Rutherford, "We were a competitive team, but we never played a good four quarters." The young, inexperienced team did as well as expected and show promise for a successful future. Karen Kohl, Renee Kohl and Claudia Romero saw plenty of playing time, that will be valuable next year.

A Time for Every Season

The 84 season proved to be a learning time, and each player gained valuable game experience, "I believe my team gave as much effort on the court as needed," commented Coach Michelle Stone. "We did not do very well record wise, but as far as learning about the game and skills, we improved 100%."

During the second round of league play, they had its closest game against Irvington. The players worked together and hustled to come within five points of winning. Top players for the team were Alex Gross, Susan Smith, Karen Tinsley, and Chris Helenihi.

JFK Gains Freshman Team

"Our 3-12 record is merely a giant statistic and shows nothing about what the freshman team accomplished," said player Ron Trengove. "When the players came into camp unconditioned, they knew what had to be done for the season."

The best game was against San Lorenzo in the Newark/Memorial Tournament. Every player gave their all. Through the season players were able to notice the improvement in their skills. They gained experience and appreciated the effort and time spent by coaches Marty Lemos, Tony Menese and Mike Kelly.

Titans Share MVAL Title

The Titan wrestling team showed great strength in five tournaments. JFK placed first in own tournament, defeating the defending champion. At the San Marin Invitational Andy Labanon and David Staley took first in their weight divisions to help the team place second in the tournament. Jeff Talamantes took a first in a San Ramon competition with team placing fifth. At Mt. Eden the Titans once again captured the tournament trophy when the Labanon brothers, Andy and Jason, took first in their divisions. Placing second in the Ukiah tournament was almost overshadowed by Steven Staley's reign in his weight class. Staley shocked everyone with four pins.

In missing two weights, Kennedy looked like it might have to settle for third again in the MVAL. After two rather easy matches against CSD and Mission, the Titans faced tough competition against Logan. Kennedy came out victorious, beating Logan 32 to 29. JFK came one step closer to a first in the league. The toughest match became Newark/Memorial. The Cougars slipped by the Titans 32-31, creating a three way tie for first place. Coach John Soulis was extremely proud of his team. Nine JFK wrestlers went to NCS competition at Sonoma State, Steve Staley, Jason Labanon, Andy Labanon, David Staley, Mike Haban, Anthony Jorge, Brenden Yee, John Cavanaugh and Jeff Talamantes.

Titans Place Third in MVAL

Striving for victory, the Titan Boys Soccer team placed third in the MVAL. With determination by the players and coach, the team did an outstanding job. Working together through rain or shine, day after day trying their best, the hard practices paid off.

Captains Kenny Wong and Dominic Kinnear worked hard in leading the team. Wong's speed and Kinnear's excellent dribbling and goal-scoring ability added the offensive threat. Putting power behind the ball, Walter Bruj gave dimension to the forward line. Goalie Ken Mezenski did a great job in judging and coming out for the ball in the goal area.

Mike Marzocco's experience helped the new fullbacks, Dave Buttress, Stewart Clark and Paul Armas. Wong sometimes dropped back to give further assistance to the defense. Paul Moreno and Steve Dutra strengthened the halfback line.

Pat Brower, Mike Waara and Bruj rotated at the forward line, giving the Titan offense a powerful threat. Chris Gallegos played at both halfback and forward positions. Steve Sandy was the reserve goalie and played well when called upon.

With only three seniors in the starting line-up, the young, Titans represented Kennedy in the MVAL Soccer Shaughnessy. After taking a 2-0 lead, JFK lost to Newark/Memorial 3-2.

JFK in Playoff

The girls soccer team finished the first half of the season with a 4-1-1 record. The team contributed extra hours during practice, which paid off as they beat top ranked Newark/Memorial when they met for their second league game against each other.

The Titan girls finished the league season with a 9-2-2 record. Coach Mark Mangano said of his team, "Physically we always gave our all. Our bad games were the result of mental mistakes."

The team improved tremendously over last season; expecially as a whole. This and trust in his team convinced the coach that they would be definite NCS contenders.

The night came when the Titans were to meet with the winners of the first round and last year's MVAL champs, New/Mem. The winner of this game would go on to NCS to represent the MVAL league. The Titans didn't make it this year, but will have a good chance next year.

Titans Aim For Defensive Strength

The Titan sluggers opened the pre-season with a 10-1 victory over Fremont Christian. The following week JFK suffered a disappointing 4-1 loss to Sunset. Kenny Geren led off with a base hit, and freshman Bill Nowicki had the only RBI in the game.

Starting pitcher Steve Moeller strengthened the batting order hitting two for four with 5 RBI's to start the preseason. Lead off hitter Geren started at second base, while Mark Flores covered first. Shortstop Ron Lopez and third baseman Bob Mickow completed the infield. Randy Lastinger took on the catching duty, and Tom Stevenson pitched seven hard innings in a 3-2 victory against Dublin. Centerfielder Jim Dunn was the lone returning letterman, Louie Clark and Nowicki joined Dunn in the outfield.

Although the Titans were a young team, the many hours of practice compensated for their inexperience. Team members also spent a lot of time preparing the field for games and keeping it in good condition.

Coach Rob Freidrich welcomed returning lettermen Tonya Armstrong, Collen Dekker, Dawn Hatheway, Beth Huntington, Christy Johnson and Kim Johnson. Newcomers Susan Mitchell and Claudia Renteria improved the team's chances for a good season.

Kennedy faced seven out of the top ten teams in the East Bay during the preseason. Newark/Memorial and Mission were named the teams to beat in MVAL competition.

The Titans concentrated on perfecting a solid defense and base stealing skills. Striving for unity, the players worked to develop a healthy attitude towards practices and games.

The boys swim team, although small in size, hopes to improve their times and be successful in individual events. With the addition of newcomer Doug Jaffray the boys hope to put together a successful 200 freestyle relay. Returning letterman were Paul Arenas, Aram Belonian, John Hess, Todd Taylor and Troy Taylor.

Coach Chuck Hunt coached both the boys and girls swim team. Ruth Strickland was sidelined during the preseason due to medical problems but she attended practice and gave support to her teammates. Girls Track on the rise

Membership on the girls' track team nearly double in size. Coach Pete Michaletos was surprised to see as many newcomers as returning members.

Junior Suzanne Law, 83's MVP returned to display her quickness in the sprints. Karen Fields, Lisa Jordan and Lisa Holley practiced hard for their stiff competition in running events. Tammy Bordenkircher, Stacey Hernandez, Melisa Phillips and Tonya Prytula helped round out the team. Freshmen Beth Allen, Shannon Atkinson and Wendy Whitman welcomed the advice and tips from experiened members.

The size of the girls team allowed Coach Michaletos to fill all events and not give away points. The inexperienced runners were versatile and eager to try different events in order to discover their strength. Enthusiasm and team spirit encouraged the girls' track program.

Going to NCS in three different sports is a rare opportunity, but Jeff Talamantes eagerly accepted that challenge. In his senior year Talamantes represented Kennedy in football and wrestling and concentrated on returning to NCS in the shot put and discus events.

Senior Walter Bruj and Ken Mezenski encountered competition from freshman teammate, Dan Carvalho, in the sprints. Doug Neu was the lone senior in distance running events. Anthony Hudson ran the high hurdles and completed with his brother David, Todd Rice and Ray Tatum placed second in the Washington Township Relays.

Joining Talamantes in the shot put were John Cavanaugh and Colin Aro. The trio placed second in the Township Relays. Christian Oliva Del Rio combined with Cavanaugh and Talamantes to take a second in the discus, also.

Ron Broff concentrated on the pole vault and occasionally subbed as a back-up runner. David Hudson and Gary Kinsey also vaulted.

Tennis, Anyone?

The Titans had only a 3-9 record last year, but coach Gary Dunbar was more optimistic this season. He predicted they should finish second or third in MVAL play.

The club was built around seven returning veterans. Senior Stan Lewis played No. 1 singles, followed by junior Paul Yang. Seniors Henry Sanchez and Dan Brinkman held down the No 4 and 5 spots. Other returning players included the No 1 doubles team of Mike Lehnen and David Smith.

Newcomers Ron Trengove, a freshmen and Sean Hernandez, a senior competed for a singles playing spot. Kenny Wong vied for a singles spot, but also considered playing No 2 doubles with returning junior Scott Chruch.

Positive Thinking Keys Badminton Victories

"I believe we have some good talent" remarked Howard Bush, the new badminton coach as he surveyed his players. "With positive thinking going for you, one may achieve farther than one might first anticipate. "During the preseason Coach Bush ran the players through drills and skill tests to determine strengths and weaknesses. Players developed technique and strategy for match play.

Dominic Kinnear returned to grab the number one position in men's singles, while Mike Marzocco played in the second slot. Anthony Jorge was very successful in preseason singles play. Debbie Dunbar notched the top girls' singles position. Battling for playing spot, in the mixed doubles category were Steve Dutra, Rannelle Lee, Angela Paramo and John Tebaldi. Roxy Feraro and Nadine Malone started the season in the number one women's doubles, while the boys team was still being determined by ladder competition. Team members challenged the top players in practice. This competition inspired players to perform their best, since a victory could mean playing at higher position.

'84 Carat Gold

Breaking the monotony of routine classes, the seniors opened Spirit Week with the first noontime rally. The seniors with their Midas' touch turned the quad into a gold mine. They didn't just have a heart of gold, they had their clothes, hair, and skin sparkling with a golden glow.

In the first skit Goldilocks wandered into the house of the Three Bears. The bear family had just left for the golden arches of McDonald's, because their Golden Grahams were "too bent." The Golden Boys sang a spirited version of "When the Titans Come Marching Home."

Various contests were performed, including the "24 Carrot Gold Eating Contest" and "Panning for Gold." The Class of '84 brought their Golden Age to a close with a Golden Gate Bridge skit. In Friday's rally the Seniors performed their "Golden Memories."

Old Time Rock 'n' Roll

Juniors debuted their spirit on the Ed Sullivan Show. Todd Rice portrayed Ed and presented four couples competing in a dance marathon. A freeze contest was held as contestants sloppily poured malts into their partner's mouth. Special guests for the show included the Marvelettes singing Mr. Postman. The top guest star was Elvis Presley. Censored signs were quickly employed as Tommy Fulwiler grinded to the music of Jailhouse Rock. Cheering girls swarmed the rock star. Breaking for a commercial, three slick juniors advertised Brylcreme. Hand Jive Dancers, Kim Johnson, Colleen Dekker, Jennifer Roderick, Kim Johnson, Melanie Lane and Donna Bullard were called back for an encore. Limbo Rock demonstrated the agility of many Juniors. All performers joined in the Bunny Hop as they sang, "See ya Later Alligator." Juniors placed second in the Spirit Week Activities.

Land of Enchantment

The Sophomore class united with the theme Disneyland. They started the day off by decorating the school with colorful and artistic posters. During the noon time rally, a typical tourist family started a day in Disneyland and were then joined by Mickey and Minnie Mouse. The family then went on the ride, Pirates of Kennedy, a group of guys acting drunk and dancing to music. The rally continued with Snow White and her Seven Dwarfs. After Prince Titan rode off with Snow White on his stick horse, the sophomore girls danced to "Hey Mickey". Bill Wegner and Mike Marzocco played Tinkerbell, arguing because they both thought they were Tinkerbell. To their surprise the real Tinkerbell flew down from the castle. Kennedy High seemed to be in trouble when the Big Bad Cougar went blowing down high schools, but thanks to the Three Little Titans, Kennedy was saved. Mickey and Minnie led the final parade.

With "Yellow Submarine" the freshmen reminisced the Beatles' influence on music during the 1960's.

Dancing to the beat of John Travolta's "Staying Alive", Marty Marzocco brought back the disco. With the help of Senior Danny Faria, Love Potion brought some "Soul" to the quad with "Stop In The Name Of Love". "Quiet Riot" united the freshmen as they cheered, "Come On Feel the Noise".

Individual Effort Builds Student Activities'

ASB President Jeff Cherry started meeting with his cabinet and student council members early in the summer. The master calendar for events and fund raisers was established far in advance.

Freshmen discovered at orientation that they were in for a busy year starting with yearbook pictures, ASB cards and activity calendars all being sold that first day. ASB sponosred the "Back to School Dance" on the first Friday of school.

After Spirit Week, Student Council members devoted their energies to service projects. Athletic Commissioner Robert Ezra worked with John Soulis to sponser athletics' Turkey Trot Dance. Honara Ynzunza coordinated the John F. Kennedy Memorial Service on the 20th anniversary of Kennedy's death. Students participated by placing flowers around the flagpole in honor of Kennedy's contribution to our country. In December the annual canned food drive sparked enthusiasm with the winning class being guests at a pancake breakfast.

Fundraising was an important role for each class as they looked at their budgets. Each class sponsored a dance and had a major candy sale to bring down costs for upcoming activities such as the Junior Prom and Senior Ball.

Taking time away from working and school, Dan Faria, Donna Cortez, Dawn Garrison and Tonya Prytula attended a CADA Leadership Conference in Woodland. The students were inspired by new ideas and were also surprised to learn that Kennedy had already tried successfully many ideas that were given at the seminars.

Foreign Language

Kennedy has two active foreign language clubs busy on campus. Mr. Bruce Edwards met with students interested in German, while first-year teacher Mr. Juvencio Chavez advised the Spanish Club. The foreign language clubs sponsor two of JFK's favorite fund-raisers, the Candy Cane Sale and Valentine Candy Sale. These services offered the opportunity for students to send special messages to friends, teachers or a secret person. The money raised went to further their interest in the culture of their selected language of study.

TV Production

Producing a TV program is no easy task, but JFK's Cable TV Production Crew put forth their best effort. Information was gathered to present current happenings and profiles of Kennedy students and teachers. Students worked as reporters and photographers. After developing a script, students faced TV cameras. With a training program students learned to use the TV equipment, and through practice they overcame stagefright and nerves. Fremont Cable viewers were able to watch the production on channel 3, a community service provided by the company.

The Chess Club

The Chess Club is now in it's third season under advisor Tom Martin. Club unity is very high, concentrating on the mental wars the game involves. We expect another undefeated season under veterans John Wood and Dan Brinkman and top newcomer Willy Brown. Other players expected to perform well are Colin Aro and Paul Arenas. The Chess Club practices every day at lunch in the Career Center in order to sustain our proven excellence. The Chess Club takes every match seriously, punishing the members who don't perform up to their potential.

The International Club

The International Club at Kennedy is a comparatively small club this year; due to this fact, we have not done anything much. We do plan to have a Christmas potluck, where we would have a chance to sample the foods that are native to each of our members; and, as it is the original purpose of this club, we shall try to have a trip, whereby we would give some foreign students a tour of a particular place in the Bay Area.-*Chi Tran*

Leo Club

The Kennedy H.S. Leo Club is a community youth service organization, sponsored by the Central Fremont Lions Club. Most of our activities are non-school related, such as helping at the local Senior Citizens Center and supporting the Lions at certain benefits, although we were involved with the school energy conservation program last year. Our major activity last year was the selling of chocolate Easter bunnies, the profit of which we donated to the Muscular Distrophy Foundation. We will be involved in this activity again this Easter. We are forming a Christmas caroling party, which would visit some convalescent hospitals in Fremont this Christmas, and we'll give away a small scholarship at the end of the year. Overall our purpose is to help the community in any way possible, while having fun together in the performance of it.-*Chi Tran*

Make It Great!

The 1983-84 Spirit Group started practice right after the May tryout. Uniforms were ordered and camp dates were selected. A universal squad, combining cheerleader and songgirl skills was an experimental project for JFK and many other MVAL schools. The JV girls attended a Cheer and Song camp at Stanford during July. The group split in half to cover both sessions. After camp they practiced six more weeks before school, teaching each other the routines. Dina Wong and Donna Bullard worked as Co-heads to ease the merging of the two skills.

A USA Cheer and Song camp in San Luis Obispo attracted the Varsity squads in August. They returned and shared ideas with the JV squad. Four year Varsity Cheerleader Tami Reading coordinated the practice sessions and led the squad at games. Honara Ynzunza headed the Song Girls squads. Eileen Allen, head of Spirit Group, met weekly with the squads to plan posters and develop ideas to promote school spirit. Titan pride was evident as students participated in ideas including themes for various games. Hat Night or Tie Day helped to unify the Titan fans.

The Spirit Group and Pep Club combined efforts to make JFK fans #1 in spirit.

Sterling's Sensational Second Year

The Band at John F. Kennedy played various kinds of music. They began with marching music, then gradually changed to symphonic music at the end of football season to be played during the Winter concert. Not only did they march in time, but they also added their talents to the crowd's cheer at sport events.

The Band class increased in enrollment to about twenty students. With second year conductor Bob Sterling, the class managed to pull through with added experience from three seniors, Dawn Brooks, Steve Rucker, and Jesse Schaa who have been in Band at JFK for four years.

Bob Sterling also added his talent as Choir instructor. The class of approximately 25 students harmonized throughout the year to produce music for listeners.

HOT OFF THE PRESS
Production Prevails

UPBEAT consisted of sports, features, activities, and "Hot Off the Press" front page news. It included items such as poetry, advice columns, movie and record reviews, editorials, upcoming events, and even advertisements that decreased the $300.00 plus cost of each issue.

A big word was improvement throughout the 1983-84 school year, stated by readers and second year Journalism instructor Keith Caldwell. He conducted a class of thirteen eager journalists throughout the year.

Among the staff were five returning students: Pamela Rapstine, Linh Nguyen, Leila Hasson, Shirley Robertson, and Gary Kinsey. These students aided the class with their experience. Kerry Rice, Brent Jones, and Shirley Robertson kept Mr. Caldwell up to date on stories and their deadlines, as managing editors. Page editors, Pamela Rapstine, Pia Bernal, Linh Nguyen and Gary Kinsey conducted cooperation in production as final deadlines neared. Photographs were contributed by Walt Bruj, Mike Lehnen, Eliren Pasion, Gary Kinsey, Jeanette Rauscher and even some unknown sources. These people captivated the reader's eye with their expertise talent.

Proofreading, typing, interviewing, and research were among the agenda of each Journalism student. But the hard work and chaos never got them down. They always had laughter and tears to share as they contributed long hours after school.

Doing it together was one of the many thoughts the students summed up as they were asked what made them a success. However, another true secret we were led to uncover was the fact that there needs to be continuous patience, hard work, and understanding. With those three words in mind, the newspaper staff never ceased to show their originality and style in their work.

Lunchtime rallies were something third period students could look forward to at 10:50. Rally Commissioner Walt Bruj worked with his commission composed of John Cavanaugh, Robin Rutherford, Kim Johnson, Heather Engwall, John Gonzales and Tina Waara to keep students entertained. Jesse Ramirez volunteered his service to provide music and operate the stereo system.

Different students participated in the fun, ranging from playing a game of Simon Says to a balloon hop against classes. Competition and contests brought laughter and cheers from the spectators. Will anyone forget Danny Faria stranded in an inner tube during the water relays, the surprised faces of the football players that were kissed by their mothers, the Marlo airband performance of Freak Zoid, or Steve Rucker's wrong answers in the Newlywed Game? Enthusiasm of students made rallies successful, and it may come as a surprise to some that JFK has far more rallies than most schools. Whether it was speaking for a sport team, performing a spirit routine, competing in a contest, or cheering for contestants, the Rally Commission strived to provide an opportunity for participation and enjoyment to all students.

SANTA REVEALED

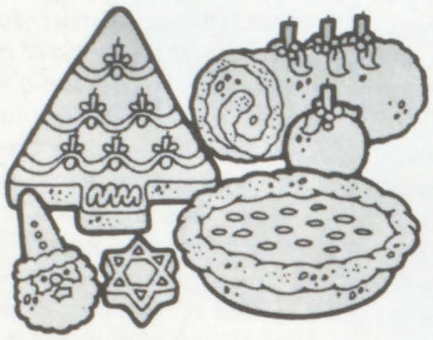
December brought a bitter cold spell to Fremont, but the possibility of snow never resulted. So toboggan races were held in the gym during the Winter Rally. Class teams entered the four part event. A four member team scooted across the floor to the "Wrap a Present" station. Each team grabbed an unsuspecting spectator to be wrapped with a roll of toilet paper. The senior girls decorated Mr. Henry Callaghan, who smiled despite the TP, bow and greeting card. At the mistletoe station each member of the team took a sprig of mistletoe into the stands and kissed a student. Back on the toboggans, the teams raced around the Abominable Snowman, alias Jeff Talamantes. At the final stage each member sang a line from "Deck the Halls." The seniors won the girls division. The sophomore team was disqualified for not tying a proper bow, giving the seniors the title in the boys division.

Tony Lowe became the victim of the traditional trick, seniors playing the trick that they were victims of as freshmen. In a carmel apple eating contest among class presidents, Lowe bit into a carmel onion. "I knew when I bit into it, that it was an onion. I tried to win, but it burned so bad. I had to stop and get a drink," replied Lowe.

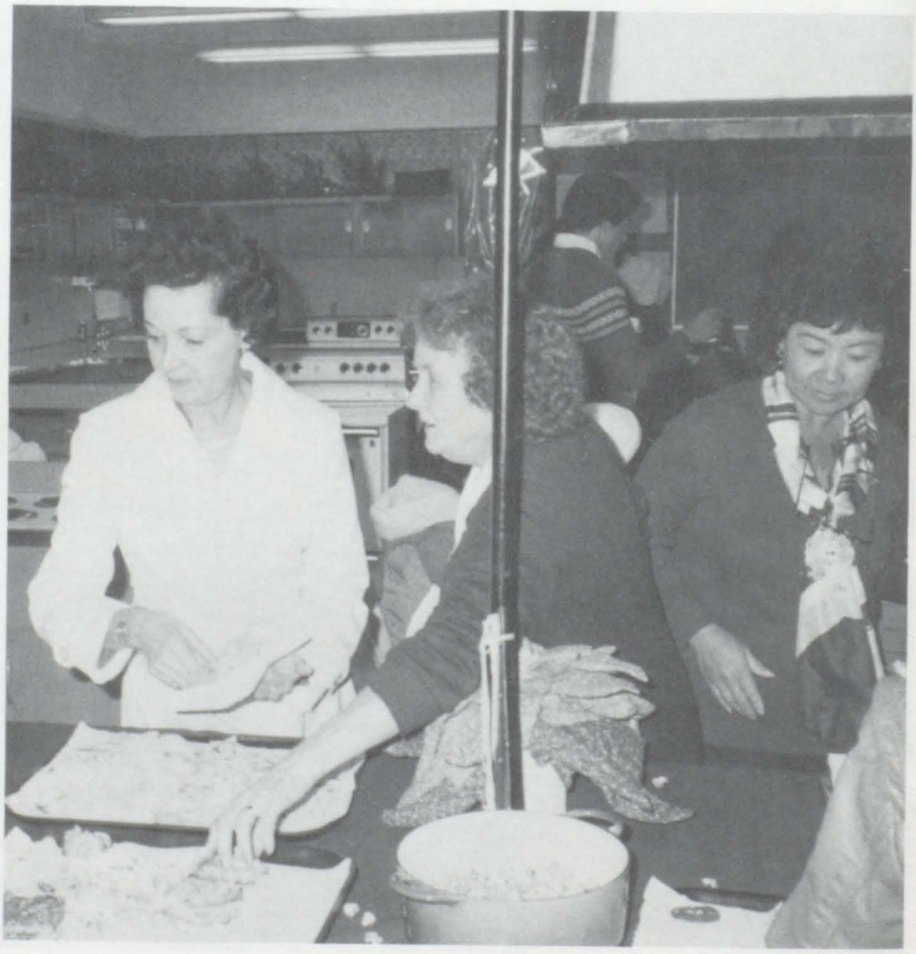
Holiday carols by the choir and band encouraged students to sing along a they waited for Santa. Along with candy, Santa was going to draw names of ASB card holders for special gifts.

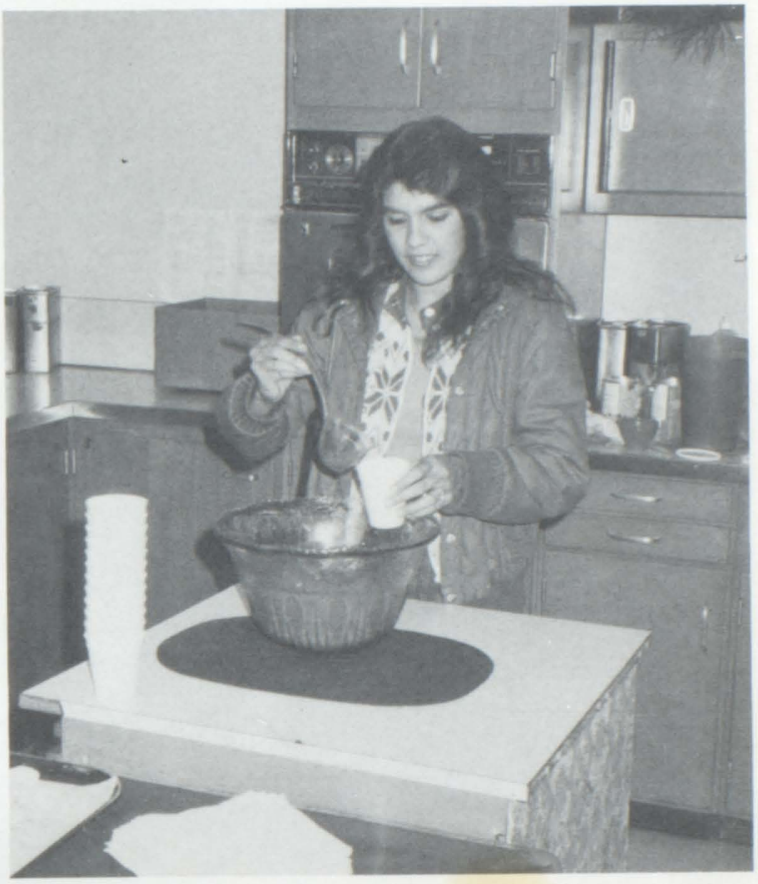
Santa arrived in red socks to hinder students in guessing his true identity. As Santa and his helpers were throwing candy, one student pulled off Santa's hat and wig to reveal Walt Bruj. "One red haired girl might be in for a big surprise—No presents!," Santa mumbled as he stepped out to make repairs. Excitement rose as Santa drew names for the presents. Brian Hutchison and Dan Brinkman were two of the lucky album winners. Jeanne Barragan, Beth Huntington and Paul Yang were among the other winners who received Purple Pride hats or stuffed animals. The rally closed with students rushing off to enjoy the long awaited vacation.

Holiday Open House



Mrs. Jan Baken and Foods' students shared their baked holiday goodies with guests at their annual party. During the day students and faculty members were invited to sample the different desserts.





Patton Upsets Mazur

King Can Celebrates

Friday the 13th didn't mark bad luck for any student in Rick Patton's first period Physics class. The class received a hearty pancake breakfast for their winning effort in JFK's annual canned food drive.

Frank Mazur's math classes have dominated the competition in past years. Diane Coelho's freshman World Studies class jumped to an early lead in the contest and sparked enthusiasm throughout the school. Patton's strategy was to sit quietly while Coelho and Mazur vied for the lead. On the last day of the drive, Patton's students revealed their hoard of cans and crowned Patton "King Can" at the Winter Rally.

"We worked together as a team, putting our hearts and minds to accomplish upsetting Mr. Mazur's reign," responded one unidentified senior. Although Kennedy is the smallest high school, JFK students collected more cans than any other school in the Fremont Unified School District.

Hey Gang,
Was this year the "Best" or what? My friends forever, here's some memories I'll always cherish. Fantasy Island Girls. Stacy-Boulder Creek. (Aunt Frog & Uncle Toad). The beach. Our bet, is it still on? "Uncle Jack" nights. Kelley-Camping. What? The tent's falling down. Learning to ski. Oh no, my top fell, life jackets save you. Ebony & Ivory, falling stars. Becky-concerts, football games, we're so grown-up, stop pucnhing! Boxer shorts swallow you. Don't leave the bathroom a mess. Hurry up! Tanya-let's go to Taco Bell, what? 3:00 am. Beach fun, Cujo car. Francine-July 4th, movies, bike rides, there following us! Tammy-nights in the Charger, why us? Darlene-Mothers, what? Look & sway. I didn't see anything. Dancing & Limo & Champagne = "Junior Prom 84". Thanx Pat. Beth-fun in the sun, first apartment, 'lil' Beth-football games, sun-roof, is it the same? Someday. Best Buddies, weekends are made for Beth, same jobs, No Hair, I'm not bald. The tears we've cried, the secrets we've shared. Stargaze Girls, Robin & Jill, football games, singing "Islands in the Streams, Spiders on the Walls", pick up on the coaches. Eileen-our Queen, "Round Table Pizza" let's eat! Honara-having fun, social hour. Trish & Heather, 3rd period. Our dances were the greatest. Hey "Cool Foxes" Kenny, Danny & Jeff, what a stake out! Talamantes take care. Paul your swell. The "Big, Bad, Seniors." "84 Carat Gold" (4 in 4) My tears are falling now. Congratulations to the Graduating Seniors. May peace be with you all.

JFK RULES!
Colleen & Melanie, rule the school.

Love you all,
Susan Rene Wickman

Golden Memories Forever Seniors! This is to all my Special Friends, throughout all 4 years. Sheri, who was always there my Freshman year. "It's your dime!" Those were the memories. Bear, Chris Emerson tell your Bro & Sis I love em'! Love you too. Well Tammy, I love ya to pieces! We have really enjoyed together! Let's keep up what we have as friends. Passing out over Mike's, what? Drive-ins, and staying over for 2 weeks. Thanks a lot. Love you cuz! Hey Darlene, so glad were friends now! Let's keep. Susan, Beth had the best summer ever, never forget it, kay? Hey Mike, we tried again, and LASTED! Thanks, love ya!

To my Sweetheart Dave:
Well Babe, I'm finally graduating. Thank-you for always being here for me-you've made my senior year very special to me and very memorable. We've shared alot of special memories together: Thanksgiving, going to Mother's, Strawberry Hill, Junior Prom. But the most Special Memory is February 5, 1983. Thank-you for making my life so special. And giving me everything that I ever wanted out of life. And that is falling in love with someone as special as you. Thank-you! Babe, it's me and you together forever! "Your're one in a billion!"

I love you always, Darlene

Sunshine,
We had our ups and downs, but through it all I still care fot you.

Su Fu

Hey Zonger Pup! Let's get some week and spend the dope together! Hi Susan and Beth. You're swell!

Love Paul

To B.,
To best, to special, thanks for being there. Thanks for 82, 83, 84, you made it special. Next year taking you out to lunch. Remember you're "The Lady in my Life" ALM, APM, our special memories. Be good next year. Bye B. "My Love" Come home soon.

Love, Frederick

Hey Comic Book Kid: What give? Say Hi to the princess. Not Brains. KD it gorgeous, agreed? Good. Stay weird.

RCG (It)

Charles,
Bonjour, mon bon amis.

Aime, Ruth

Paul, you're swell!

Mongo,
Thanks for the memories: Christmas 81', 82', my ring, Disneyland, Junior Prom and all the other good times. Never forget Seth, Chrissy and Nat. Never forget you! Live life to it's fullest. Take care, good luck and I'll always love you!

To all my friends:
I thank you all for making my high school years mean so much. It is people like you that keep me going. Eileen, I thank you for listening to me and constantly being ready to help me. You have never failed me as a friend. Danny, thank you very much for keeping me in laughter and friendship. Brian, since the 6th grade. Thanx for being there. Kenny and the rest of the gang-Great Times! Coach Mike, you're the greatest. Thanx for teaching me about football and life. Thank you football team. Tami, we have had some good and meaningful times. Thanx. Tracy, you're one of my best friends. Now that I have said thanx so many times there is one more thing to add! I thank every person that has supported and stood behind me through my years at Kennedy. Your support is well appreciated.

Sincerely,
Jeff Cherry

Melinda VanVactor:
Remember the first time we met? You so quiet and shy towards me, and me on the other hand so loud and friendly towards you. If people had looked at us then they would have never believed we would turn out to be best friends. But we did. It did'nt matter how different we were. But it was something about us that had a wonderful friendship inside of us that just had to come out. We had to share our inside friendship with each other. We've been through so many good times together and only a few bad times. But what would a friendship be without some disagreements? You have always stood by me through my confusing times and I thank you for it. I would have never have gotten all over it without you. I think you know what I mean too. I really hope our friendship keeps growing and growing through the years. Also I hope we have a great time in high school together. I know it will be fun. Just like the Christmas Rally. Remember? Hey! Just rmemeber one more thing. "Both of us a half, we equal a whole." Cindy and Melinda, friends forever. 1987 our year!!!

Cindy Troxclair

Trish,
Hey Banky! Birds, Bernard, Poofy's and possums! Ah . . . the good things in life. Sunshine (HA!) Mickey D's. Omigawd, how Slick can you get! Turkey legs and the Emperor.

Friends,
Jill & Robin-"Camaro Summer," memories forever, I love ya both. Hey Goon (HY)-carrots, great times. Tami, we've been through it all! (Ah . . . Jump!) I'll miss you Reading. Kenny, best wishes, you soccer stud. To Susan, Beth and Becky-wish we we're together sooner, take care, all of you! Jeff, you're the greatest. Our friendship has been the best, let's not let it go! Thank you for everything BMOC. Danny, Hi Hon. Thanks for being the biggest part of my High School years. Special friends DJ. "1984"-a class to remember!

Love, Eileen

Ms. Rauscher, they'll never understand until they're in your shoes—there's only one you, so I guess they'll never know. Thanks for giving me a chance, I appreciate it! Dont' give up—be willing to take another risk and chance, otherwise tomorrow may be empty. Love is still possible; but to commit all one's soul is a happiness not to be found again. My "Canada" friends, don't forget to "HUG" more (Live love and learn). SR, SC, Gk, JM, AJ, LY, TJ, LK, BW, thanks for being my "special" friends. No Tie & Valley Girl, Luv ya, Hot Child (Your Loveable basket case—Gigi) Mr. C, doin' it just for you, on reality's edge. "And everything came up roses."

Pamela Rapstine

My Love,
The times we have shared have been very special, and I know that through the years we will stay together. My life has been excellent "since I found you." Remember . . . CVCC, Blue Lace, 4 sec., BHB, At Sharon's, Farrell's.

I wuv you, Airbrain

Students Compliment JFK Faculty

Thank you Mrs. Putman for being the greatest teacher and for really caring!

Mr. Monian is a cool dude. If you ever talk to him he will blow your mind and you will think he's nuts!

I feel that Mrs. Putman has really taught me great and important things about life. Thanks for everything. Ms. Rauscher I'm sorry for giving you such a bad time this year. #47 Louie Todd Clark.

Coach Soulis, thank you for being such a wonderful person. You have done a great job in the PEER Counseling and I'm glad I was a part of it. I learned a lot. You are a terrific wrestling coach even if I was only a stat you really put loads of effort forward and I think that's so special.

Mrs. Grimes (racoon raver), there are no words to express my appreciation. Thanks! (Obsession-overcome).

John F. Kennedy, you have an outstanding school with the teachers, students, faculty and outside help. You should be one proud man!

Thank you for your help in everything Ms. Rauscher. Mrs. Bergh, thanks for your help in English, I'm sure it will help me in college. It Better!

Walter Bruj

I feel if there were more teachers in this school like Mrs. Bergh, people would learn alot more & we may even be smarter than our parents.

I think Miss Robinson is a great teacher. She knows what she's doing and she knows how to teach.

Mr. Edwards you're the best!! Keep up the good work!

I really appreciate the people who clean up our school. I think they deserve a great big thanks.

All I have to say is that this school is the best and the staff is great.

I think Corssetti has a great sense of humor, he tells good jokes.

I think the whole faculty has been great! I've been here for two years, and I have found out that the faculty really cares. The school's help is here for our benefit and if we're not going to pay attention and learn, then we we shouldn't bother coming. The faculty are willing people whenever a situation comes up in which you can't handle yourself.

Mr. Sletten is the best teacher I can imagine. He is honest, exciting and very nice and kind.

Mr. Hoskins is one of the best teachers my sister and I have. I think he should get a raise in his pay higher than whatever he has now, because he deserves it!

Jerry Caveglia, Thank you very much, you have opened my eyes to what it going on in this world. Thanks again, John Hess

Ron Wrinkle, you really helped me a lot in my first years here. You also helped me out with my parents. Thanks for all the help and the dive lessons.

John Hess

Putman is terrific! You should give her a riase.

Ron Wrinkle is a great custodian, but not only that, he's a great guy too!!!

I would like to thank Ron Masuda for all the help and information that he has given me. Thanks a million Bud.

Avery Hodge

Special thanks to all the teachers who have put up with me in the last 4 years. Especially Mr. Hakola, Coach Mike, Mr. Griffin, Mrs. Putman and last but not least Ralphy Holding.

Love to all, Avery Hodge

Mrs. Coleman has got to be the greatest teacher that Kennedy has ever had.

Mr. Ernst is hella cool and so is Coach Mike.

I would like to say that Dean is the best Custodian at the school.

On November 22, 1983, 20 years after the death of President John F. Kennedy students gathered around a flag pole hung at half mass to remember the man which the school is named for.

History teacher Jerry Caveglia asked students, "What does the name mean to you who wear his name on your letter jackets? What can I say about the man, about the way it was?

"More than a man died that Nov. 22. Did belief also die in Dallas? John Kennedy appealed to our best side, We really believed that we could change for the better and change the world with us."

He expressed hope that we can again overcome the fear, that we can again believe in love and peace, that we once again can learn to admit our mistakes and continue to strive for a better life for all of the human race.
